WHERE IDEAS TAKE SHAPE IN COLOR

 **LANDMARK**
CERAMICS

A new **landmark** in the ceramic industry

Landmark ceramics is an American company, based in Tennessee that has set out to research, manufacture and sell top quality porcelain ceramics in North America, taking advantage of the proven experience of the Gruppo Concorde, an international leader in the sector. Technological innovation, market presence, attention to detail, the welfare of people and the environment, efficient service and a thorough product range make Landmark a new benchmark in the North American market for those who are looking for a reliable partner for any building and architecture project using US made top quality porcelain tiles.

01.PROJECT OVERVIEW

COLOR. COMBINE. CREATE.

Design Work is Landmark's color-focused surface system: a special project that places color at the center, with a coordinated palette that connects Elite, Elite Color, Vision, Vision Color, and Soul collections. Shades range from balanced neutrals to bold accents, helping designers shape interiors with a clear visual logic within contemporary residential and commercial settings.

Tower

Plank

Trio

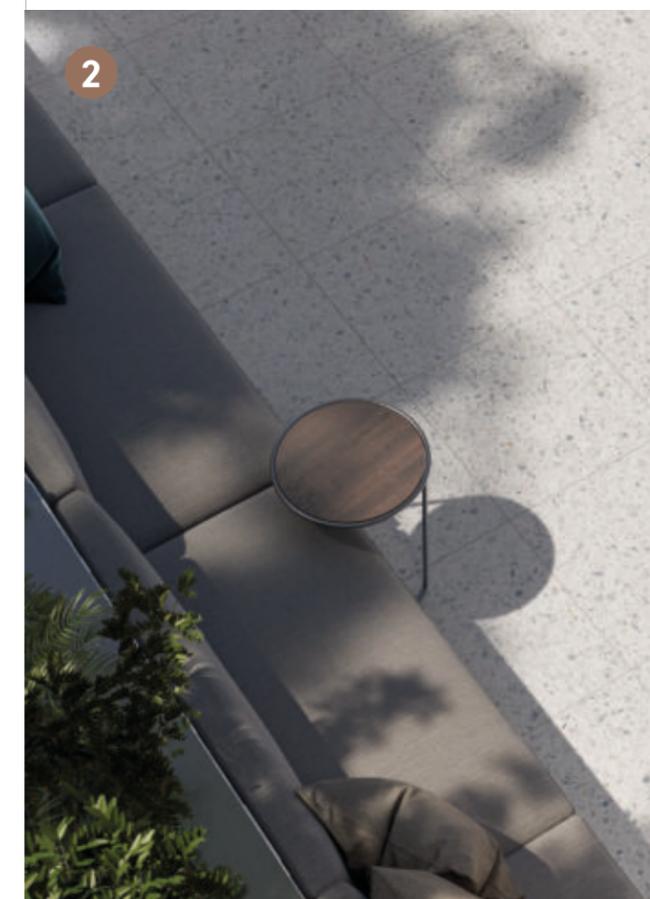

Spire

The Elite Shapes geometric language adds a geometric layer to Design Work. Modular pieces, derived from the 24"x24" format, enable creative and repeatable layouts. Combined with the Elite and Elite Color palette, they create rhythms, borders, and focal points that guide the interior design. The modules are available in Large and Small sizes and can be combined to create either subtle textures or more defined patterns, in line with the personality and style of any interior design project.

EXTREME VERSATILITY.

Design Work is conceived as a coordinated porcelain system with multiple solutions for architectural projects. All categories share the same chromatic logic, supporting consistent transitions from large surfaces to refined details.

- 1** Porcelain Tiles
- 2** Porcelain Pavers
- 3** Porcelain Veneers
- 4** Porcelain Mosaics
- 5** Porcelain Bricks

SOLUTIONS FOR CREATIVITY.

Design Work brings together coordinated shades, shapes, sizes, and surface looks in one color-led system. The palette supports balanced tone-on-tone mixes and clear contrasts across collections, while different shapes add graphic options for floors and walls. The result is a focused range that simplifies selection and ensures consistent pairings.

AVAILABLE SIZES

FOR WALL

Color continuity across floors and walls is central in Landmark Design Work. Coordinated formats and finishes ensure smooth transitions across spaces. Walls may extend floor tones or add controlled accents with mosaics and shapes. This flexibility supports total look projects and reinforces a coherent material identity across rooms.

AND FLOOR.

08.DESTINATIONS OF USE

YOU OWN THE SPACE.

RESIDENTIAL

INDOORS

OUTDOORS

PUBLIC

HOSPITALITY

Landmark Design Work suits a wide range of destinations of use. The coordinated palette and modular options help define functions, mark thresholds, and guide movement through shared spaces. From welcome areas to learning and leisure zones, surfaces support orientation and always set the right mood.

CONFIDENCE IN EVERY STEP.

SAFESTEP+

SafeStep+ enhances slip resistance within the Design Work palette* through a soft matte finish. The DCOF ≥ 0.65 increases traction in any space with frequent use. Surfaces maintain a low sheen, feel comfortable underfoot, and are easy to clean. This solution delivers greater confidence while preserving the project's intended aesthetic.

* The SafeStep+ surface comes standard only for the Vision, Vision Color, Elite, Elite Color collections

10.MATERIAL BENEFITS

ELEGANCE THAT LASTS.

High-performance porcelain gives Design Work surfaces lasting color, strength, and a clean aesthetic for projects that demand precision across interior and exterior applications. Porcelain tiles resist stains, scratches, water, frost, and UV exposure, maintaining appearance also in busy areas. Free of PVC, VOCs, and formaldehyde, porcelain supports healthier spaces, is easy to clean, and helps limit bacterial growth. A long service life and recyclability make it a responsible choice for color-driven design.

The color of tiles printed in this catalog may differ from actual tiles. Tile color reproductions in this catalog are representative only. Slight tone and shade variations are inherent in porcelain tiles. Before selecting a color, we recommend that you contact your local representative, who will provide you with a sample piece of the requested tile.

This porcelain tile product is manufactured with a V2 shade variation. Remember that the amount of color as well as the texture of each piece may vary from tile to tile. Inspect the product immediately upon delivery and select tiles from many boxes during installation to minimize and blend any possible color difference.

* Average values referred to our production and related to the matt finish of the product.
 ** As far as values relating to the matt finish of the product and to tests carried out by certified external laboratories whose results are available upon request at Headoffice, we are willing to check the lot you are interested in purchasing.
 - Be sure to use tiles belonging to the same caliber.
 - Test results are available on request.
 - The information provided can be subject to change. Please refer to lcusa.com for the latest, most accurate and up-to-date information.

LANDMARK SURFACES

MATT

A refined matte surface with a contemporary appearance that enhances the natural character of porcelain.

SAFESTEP+

A high-performance lowsheen, matte finish with enhanced anti-slip protection. The DCOF ≥ 0.65 delivers enhanced safety without compromising aesthetics and while maintaining a surface that is pleasant to the touch and easy to clean

GRIP

The ultimate anti-slip solution able to combine a DCOF ≥ 0.70 and DIN R11 C classification with a low sheen, easy to clean and pleasant to the touch surface. Ideal for outdoor areas and indoor wet spaces such as pools, patios, and SPAs.
