24"x48" BY COLLECTION

From sleek modern surfaces to timeless natural inspirations, Landmark's 24x48 offering spans across all major product categories: Porcelain Tiles, Porcelain Grip Tiles, Porcelain Pavers, and Porcelain Veneers (Atelier XL). Each category is thoughtfully represented with a wide variety of aesthetic options, allowing anyone to find the perfect match for any project-indoor or outdoor, residential or commercial.

Whether you're drawn to the boldness of stone, the warmth of travertine, or the sophistication of concrete and marble looks, Landmark's 24x48 portfolio delivers design freedom with the benefits of durability, low maintenance, and seamless integration across spaces.

Explore this catalog to discover how the 24x48 format opens up a world of possibilities-unifying size, style, and performance in.

The color of tiles printed in this catalog may differ from actual tiles. Tile color reproductions in this catalog are representative only. Slight tone and shade variations are inherent in porcelain tiles. Before selecting a color, we recommend that you contact your local representative, who will provide you with a sample piece of the requested tile.

This porcelain tile product is manufactured with a V2 shade variation. Remember that the amount of color as well as the texture of each piece may vary from tile to tile. Inspect the product immediately upon delivery and select tiles from many boxes during installation to minimize and blend any possible color difference.

The color of tiles printed in this catalog may differ from actual tiles. Tile color reproductions in this catalog are representative only. Slight tone and shade variations are inherent in porcelain tiles. Before selecting a color, we recommend that you contact your local representative, who will provide you with a sample piece of the requested tile.

This porcelain tile product is manufactured with a V2 shade variation. Remember that the amount of color as well as the texture of each piece may vary from tile to tile. Inspect the product immediately upon delivery and select tiles from many boxes during installation to minimize and blend any possible color difference.

* Average values referred to our production and related to the matt finish of the product.

** As far as values relating to the matt finish of the product and to tests carried out by certified external laboratories whose results are available upon request at Headoffice, we are willing to check the lot you are interested in purchasing.

- Be sure to use tiles belonging to the same caliber.
- Test results are available upon request. Those results are based on tests performed in the Landmark laboratory, or by other accredited third parties laboratories over the past months and represent by no means performance guarantee.
- Landmark tiles can be slippery when wet. We recommend to make sure that the surface is always dry.
- The information provided can be subject to change. Please refer to one of our websites (lcusa.com or outdoor.landmarkceramics.com) for the latest, most accurate and up-to-date information.

| PHYSICAL PROPERTIES | TEST ASTM | NORTH AMERICAN STANDARD A137.1* | RESULTS |
|-------------------------------------------------------------------------------------------------------------------------------------|-------------------------|---------------------------------|-------------------------|
|  Water absorption * | C373 | ≤ 0.5% | COMPLY WITH ANSI A137.1 |
|  DCOF Average dynamic coefficient of friction ** | ANSI A.326.3 | As reported | EW - Exterior, Wet |
|  Skid Resistance | EN 16165 (EX DIN 51097) | - | A+B+C |
| | EN 16165 (EX DIN 51130) | | R11 |
|  Resistance to freeze/thaw cycling * | C1026 | As reported | RESISTANT |
|  Resistance to thermal shock | C484 | As reported | RESISTANT |
|  Warpage (edge) | C485 | Warpage ± 0.4% or ± 0.05 in | COMPLY WITH ANSI A137.1 |
|  Warpage (diagonal) | C485 | Warpage ± 0.4% or ± 0.07 in | COMPLY WITH ANSI A137.1 |
|  Wedging | C502 | ± 0.25% or ± 0.03 in | COMPLY WITH ANSI A137.1 |
|  Chemical resistance | C650 | As reported | UNAFFECTED |
|  Resistance to stain | C1378 | As reported | UNAFFECTED |
|  Thickness | C499 | Range: 0.04 in | COMPLY WITH ANSI A137.1 |
|  Breaking strength | C648 | 250 lbf or greater | COMPLY WITH ANSI A137.1 |

* Average values referred to our production and related to the matt finish of the product.

** As far as values relating to the matt finish of the product and to tests carried out by certified external laboratories whose results are available upon request at Headoffice, we are willing to check the lot you are interested in purchasing.

- Be sure to use tiles belonging to the same caliber.
- Test results are available on request.

WARNINGS.

- Outdoor pavings installed unglued above the ground level are subject to the action of the wind, with the risk, in some cases, of becoming airborne.The manufacturer recommends to require the assistance of a qualified professional in order to check the suitability of the installation system above the ground adopted, in accordance with the local laws and regulations and the conditions of use. Failure to do so could result in serious injury or property damage.
- If the application of the 20 mm slabs requires the ceramic product used in structural installations, the project engineer and/or customer must carefully assess the project requirements with regard to the technical specifications of the slabs. to prevent the risk of damage or injury, the manufacturer recommends: with regard to a raised floor installation a ceramic slab may fracture on impact if a heavy object falls on it from any significant height. therefore the manufacturer recommends to check the specific intended use before starting the installation and to follow table for raised installation provided below. in certain conditions, reinforcing must be applied on the back of the slabs (double fiberglass mesh) supplied and applied by the manufacturer; with reference to any dry installation system of flooring above the ground level, the manufacturer recommends to comply with local regulations and conditions of use with regard to wind-load, loadbearing, seismic events, etc. Failure to comply with these recommendations may lead to improper use of the product and could cause serious damage or injury. Failure to adhere to the manufacturer's instructions for installation of slabs on raised pedestal systems may result in serious injury.
- For further information and recommendations concerning the installation systems please refer to outdoor.landmarkceramics.com website.
